Lake Clementine Boat-In Camp Closing For Park Upgrades

AUBURN – The Lake Clementine boat-in campground will be closed beginning Monday September 10, 2001 in preparation for a major improvement project at the boat launch ramp and parking area.

The early closure is to allow park staff to perform annual seasonal maintenance to the boat-in campground prior to the closure of the Lake Clementine parking area and launch ramp later in September for the improvement project. The boat-in campground normally closes on Nov. 1.

Lake Clementine will remain open for boat day-use until rehabilitation work begins. The tentative project start date is in the last week of September.

The improvement project will provide pull-through parking spaces for vehicles and boat trailers, a paved parking surface and a wider road to the launch ramp. The project, at a cost of more than \$500,000, is being funded through a grant from the Department of Boating and Waterways.

The boat in-campground is scheduled to reopen next spring as soon as the weather permits and pending repairs or maintenance work are completed.
